

*TOWN REPORT
SUDBURY
MASSACHUSETTS
1965*

CINDY PARKER

The Wayside Inn

A SUDDEN, MIGHTY SWING and catcher Al Ey and Umpire John Lavezzo found themselves watching a sharp grounder to third. The action took place during the National-American League playoff game at Featherland Park on July 5. The American League players won the day's honors by chalking up five runs to the National League's two.

During the year, William R. Lamb was appointed by the Selectmen to fill a term expiring March, 1968, and Thomas A. Tarpey resigned.

Respectfully submitted,

DAVID O. IVES, Chairman
 WILLIAM R. LAMB
 TADEUS J. MEDOWSKI
 DAVID L. BOBROFF, Clerk

POWER AND LIGHT COMMITTEE

The Committee during 1965 made field inspections and recommendations to the Selectmen in regard to 13 petitions by the Boston Edison Company and the New England Telephone and Telegraph Company for new and replacement pole locations. Approval was recommended for 11 of these petitions and disapproval for the others.

The Town has entered an appeal in the Supreme Judicial Court from the decision of the Department of Public Utilities of December 2, 1964 in which the Department granted the petition of the Boston Edison Company to take by eminent domain property and rights of way and easements in lands situated in the Town, and also in the towns of Concord and Wayland, for the purpose of constructing overhead electric transmission lines. Appeals have also been entered by the Sudbury Valley Trustees, Inc. and Mr. Harry C. Rice, both owning property which would be affected by the taking as authorized, and the Town of Wayland.

The Committee has been advised by Mr. Philip B. Buzzell, Special Counsel working on this case with Town Counsel, that the Department of Public Utilities is now in the process of preparing the necessary papers and documents to be transmitted to the Supreme Judicial Court for purposes of the appeal. In view of the time required to prepare the town's appeal for formal presentation to the full court, it is doubtful whether the appeal will be heard during the present term of the court; but it should be heard in the early fall of 1966.

The Committee drafted letters to be sent by the Selectmen to the Boards of Selectmen in Wayland and Concord urging them to withhold permission for Boston Edison to cross public ways in their towns with high tension transmission lines. It was instrumental, also, in having the threatened desecration of the Sudbury River Valley mentioned in a BOSTON HERALD editorial on the subject of conservation. The Committee drafted letters for the Selectmen to Governor Volpe urging him to prevent the erection of transmission lines across the property of the Massachusetts Division of Fish and Game and to Secretary Udall of the U.S. Department of the Interior requesting a meeting with him to discuss the crossing by these lines of the Sudbury National Wildlife Refuge. In addition the Committee met with Lieutenant Governor Richardson to enlist his support in our cause.

Your Committee intends to continue to do everything possible to keep overhead transmission lines out of Sudbury.
